INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference MCMK-3A-PC		see Form PCT/ISA/220 as well as, where applicable, item 5 below.					
International application No. PCT/US05/01864	International filing date (day/month/year) 21 January 2005 (21.01.2005)	(Earliest) Priority Date (day/month/year) 21 January 2004 (21.01.2004)					
Applicant . MICROCONTINUUM, INC.							
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of sheets. It is also accompanied by a copy of each prior art document cited in this report.							
Basis of the Report a. With regard to the language, the international search was carried out on the basis of: the international application in the language in which it was filed.							
a translation of the international application into, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b))							
b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I. Certain claims were found unsearchable (See Box No. II)							
3. Unity of invention is lacking (See Box No. III) 4. With regard to the title,							
the text is approved as subm	the text is approved as submitted by the applicant.						
the text has been established	by this Authority to read as follows:						
5. With regard to the abstract,							
the text is approved as subm	itted by the applicant.						
1		ty as it appears in Box No. IV. The applicant arch report, submit comments to this Authority.					
6. With regard to the drawings, a. the figure of the drawings to be	published with the abstract is Figure No. 1.						
as suggested by the	applicant.						
as selected by this Authority, because the applicant failed to suggest a figure.							
as selected by this Authority, because this figure better characterizes the invention.							
b. none of the figures is to be p	ublished with the abstract.						

Form PCT/ISA/210 (first sheet) (April 2005)

INTERNATIONAL SEARCH REPORT

Box IV TEXT OF THE ABSTRACT (Continuation of Item 5 of the first sheet)

International application No.

PCT/US05/01864

The technical features mentioned in the abstract do not include a reference sign between parentheses (PCT Rule 8.1(d)).

NEW ABSTRACT

A pre-formatted optical data storage tape (10) including an elongated linear polymer layer having at least one pattern of optically readable embossments (114) on at least one surface of the polymer layer, and an optical recording layer covering the pattern of optically readable embossments (114) of the elongated linear polymer layer, wherein the optical recording layer is adapted such that recorded marks (120) may be made in the recording layer by directing a focused source of energy into the recording layer.
